Approx 25 mins, 17 miles

Terrainology

Majority of walk is on road, canal towpaths and field edges. There is one field to cross. At time of recce, there were puddles on the towpaths (and in other places) but not path barring. Mud was present in some places but not boot enveloping.

Stileometer

Reads 0 for this walk.

Inclineometrics

Overall 'up' is 80ft. This was only noticed when a short downward slope appeared at the end of the incline. The rise takes place over a slope of 2000ft, that is 1 in 25, road signs tend to be at least 1 in 10 or steeper.
